Essay Prompt:

Community is more than just a place; it is how people treat one another and how they choose to get involved.

In your own words, explain what “community” means to you. Describe one specific example of how you have contributed to a community you are part of (such as your neighborhood, school, workplace, team, or another group), or one way you hope to contribute to a community in the future.

Then, share one realistic idea for how our Association could help create a stronger sense of community within the neighborhood. This idea does not require prior involvement in POA activities.

Your response should reflect your values, sense of responsibility, and how individuals and organizations can make a positive impact.
